Mindfulness Meditation

By intentionally practicing mindfulness - deliberately paying more careful moment-to-moment attention- individuals can live more fully and less on 'automatic pilot,' and thus being more present for their own lives.

This retreat will provide an opportunity to:

- Learn how to meditate or deepen your practice
- Set aside everyday stress and mental noise
- Participate in Noble Silence (maintaining quiet)
- Be mindful: focus your awareness on the present moment, in a patient and loving way
- Calmly accept your feelings and thoughts, as they occur, without judgement
- Participate in yoga - instruction to unite the body and the mind
- Experience both seated and walking meditations, with guidance by Bhante Dhammawansa
- Listen to a Dhamma talk by Bhante (the truth of what the Buddha taught)

Bhante Dhammawansa, a Theravada Buddhist Monk for over 40 years, holds a Masters Degree in Buddhism. Currently residing in Clearwater Florida, Bhante leads several weekly Mindfulness Meditation groups in the state of Florida while he continues to travel throughout the US and the world teaching Mindfulness Meditation and giving Dhamma talks.

His quiet, kindly nature makes him accessible to all and an inspiration to many.
